PROactive PRONUNCIATION

“Schwa” in “I” Words

Go through the word list, hear the short "uh" sounds, and compare them with your typical pronunciation. If you notice you are saying "eee," pull the middle of your tongue down, so it rests naturally in your mouth, and say "uh." Listen and compare until it is clear you can hear and differentiate between your sound and the schwa. The stressed syllables are CAPITALIZED, and the unstressed syllable with schwa is underlined.
