PROactive PRONUNCIATION

“EE” /i/ in Final “Y” Words

The issue that speakers have with the “y” is that they produce more of a lower tongue position as in /ɪ/ “ih,” so “happy” /hæpi/ would sound like “happih” /hæpɪ/ and “many” /mɛni/ would sound like “menih” /mɛnɪ/. Practice the words below to feel your /i/ “EE” smile pronunciation at the ends of these words.

alley
