PROactive PRONUNCIATION

“oo” /u/ Vs. “you” /ju/

Often there can be confusion about the “oo” /u/ vs. the “you” /ju/ sounds. There are a few words that have a tiny “y” sound before the /u/.

Below are some words to be aware of that have the “you” and NOT the “oo.” So for the word “beautiful,” it would not be pronounced “boo duh fuhl” but rather “b**you** duh fuhl.”
